## OPPORTUNITIES

Accenture have now opened their apprenticeship applications. “Our apprenticeship programmes offer a perfect blend of training, mentorship, and a genuine head start to a career in technology or consulting. You’ll spend between two to four years, depending on your experience, qualifications and the degree programme, obtaining either a BSc, BA, or Master’s degree at the end of the programme.” Read more here.

Download the free booklet from YearCompass Movement for a set of exercises that will help you review, learn from and celebrate the year you are leaving behind, as well as planning for 2024.

Do you love documentaries? Are you in Year 13 and turning 18 soon? If so, the Grierson DocLab training from The Grierson Trust could be the training programme for you. From intensive training to bursary-supported work placements, the initiative will provide 12 successful individuals with the skills, confidence and connections to thrive in factual TV and documentary making. Deadline to apply 23 February, with a webinar to find out more taking place Tues 23 Jan.

CITB are the industry training board for the construction sector in England, Scotland, and Wales. It’s their job to help the construction industry attract talent and to support skills development, to build a better Britain. They have created a new video to help you discover what a career in construction can offer you. There are so many more career pathways than “just” trades so if you’re looking at options within the construction industry, this video will be helpful.

Interested in a future in finance? This programme will help you find your niche! You’ll lay the foundations as you explore personal finance and its diverse elements.

## JOB OF THE WEEK

This week’s video focuses on the job role of a Water Quality Scientist.

They ensure that water quality targets and standards relating to specific legislation are met, testing and finding remedies to solve problems.

Watch the video to learn more about how much you could earn, the qualifications you need & what subjects link to this career.

## LABOUR MARKET INFORMATION FACT

7 in 8 workers lack even a single green skill — at a time when the future of our planet depends on them.

Climate change is the most urgent existential threat of our time. The global workforce is our most powerful engine for tackling it.
